

22 May 2023

Dear Parents / Carers

After long and careful consideration, the Governing Board of Bramhall High School are pleased to announce that they have decided to pursue becoming an academy with a view to joining The True Learning Partnership Multi Academy Trust (TL).

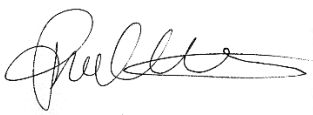

We have already developed positive relationships with key representatives from TL and further discussions will begin soon between the Trustees of True Learning, Governors of Bramhall High, the Local Authority and the Department of Education. As part of these discussions, there will be full consultation with all of our stakeholders including staff, parents and students. We will keep you informed as we progress with these discussions.

The governors and school leadership team believe that conversion to an academy with TL will offer many benefits and opportunities to ensure the values of the school are protected. TL will provide a greater number of choices as to how the school may develop, will allow the school to continue to improve the opportunities provided for students and support the school in its future development.

We are collating a list of frequently asked questions that will be on the school website by half term. If you have any other initial questions please email:-
